verify.trading

THE PROBLEM

The market is not your enemy.

The information gap is.

Most retail traders lose money
not because they lack intelligence,
but because they make decisions
without the right information
at the right moment.

74%

Retail traders lose money

£14,600

Average fraud victim loss

£200M

UK crypto industry lost to scams

2 SECS

To verify any broker

verify.trading

THE PROBLEM

The four mistakes that cost retail traders most.

Unverified broker deposit

Most traders deposit based on Google search and Trustpilot reviews. A 4.8-star rating costs £2 per review.

Instinct-based trading is gambling with extra steps

Every professional trader has a pre-trade verification process. Most retail traders skip it.

Following unverified signal services

Signal groups run from zero accounts and post only winning screenshots. Losing accounts get deleted.

Trading without psychological structure

Revenge trading, overtrading after wins, moving stops out of fear destroys more capital than bad strategies.

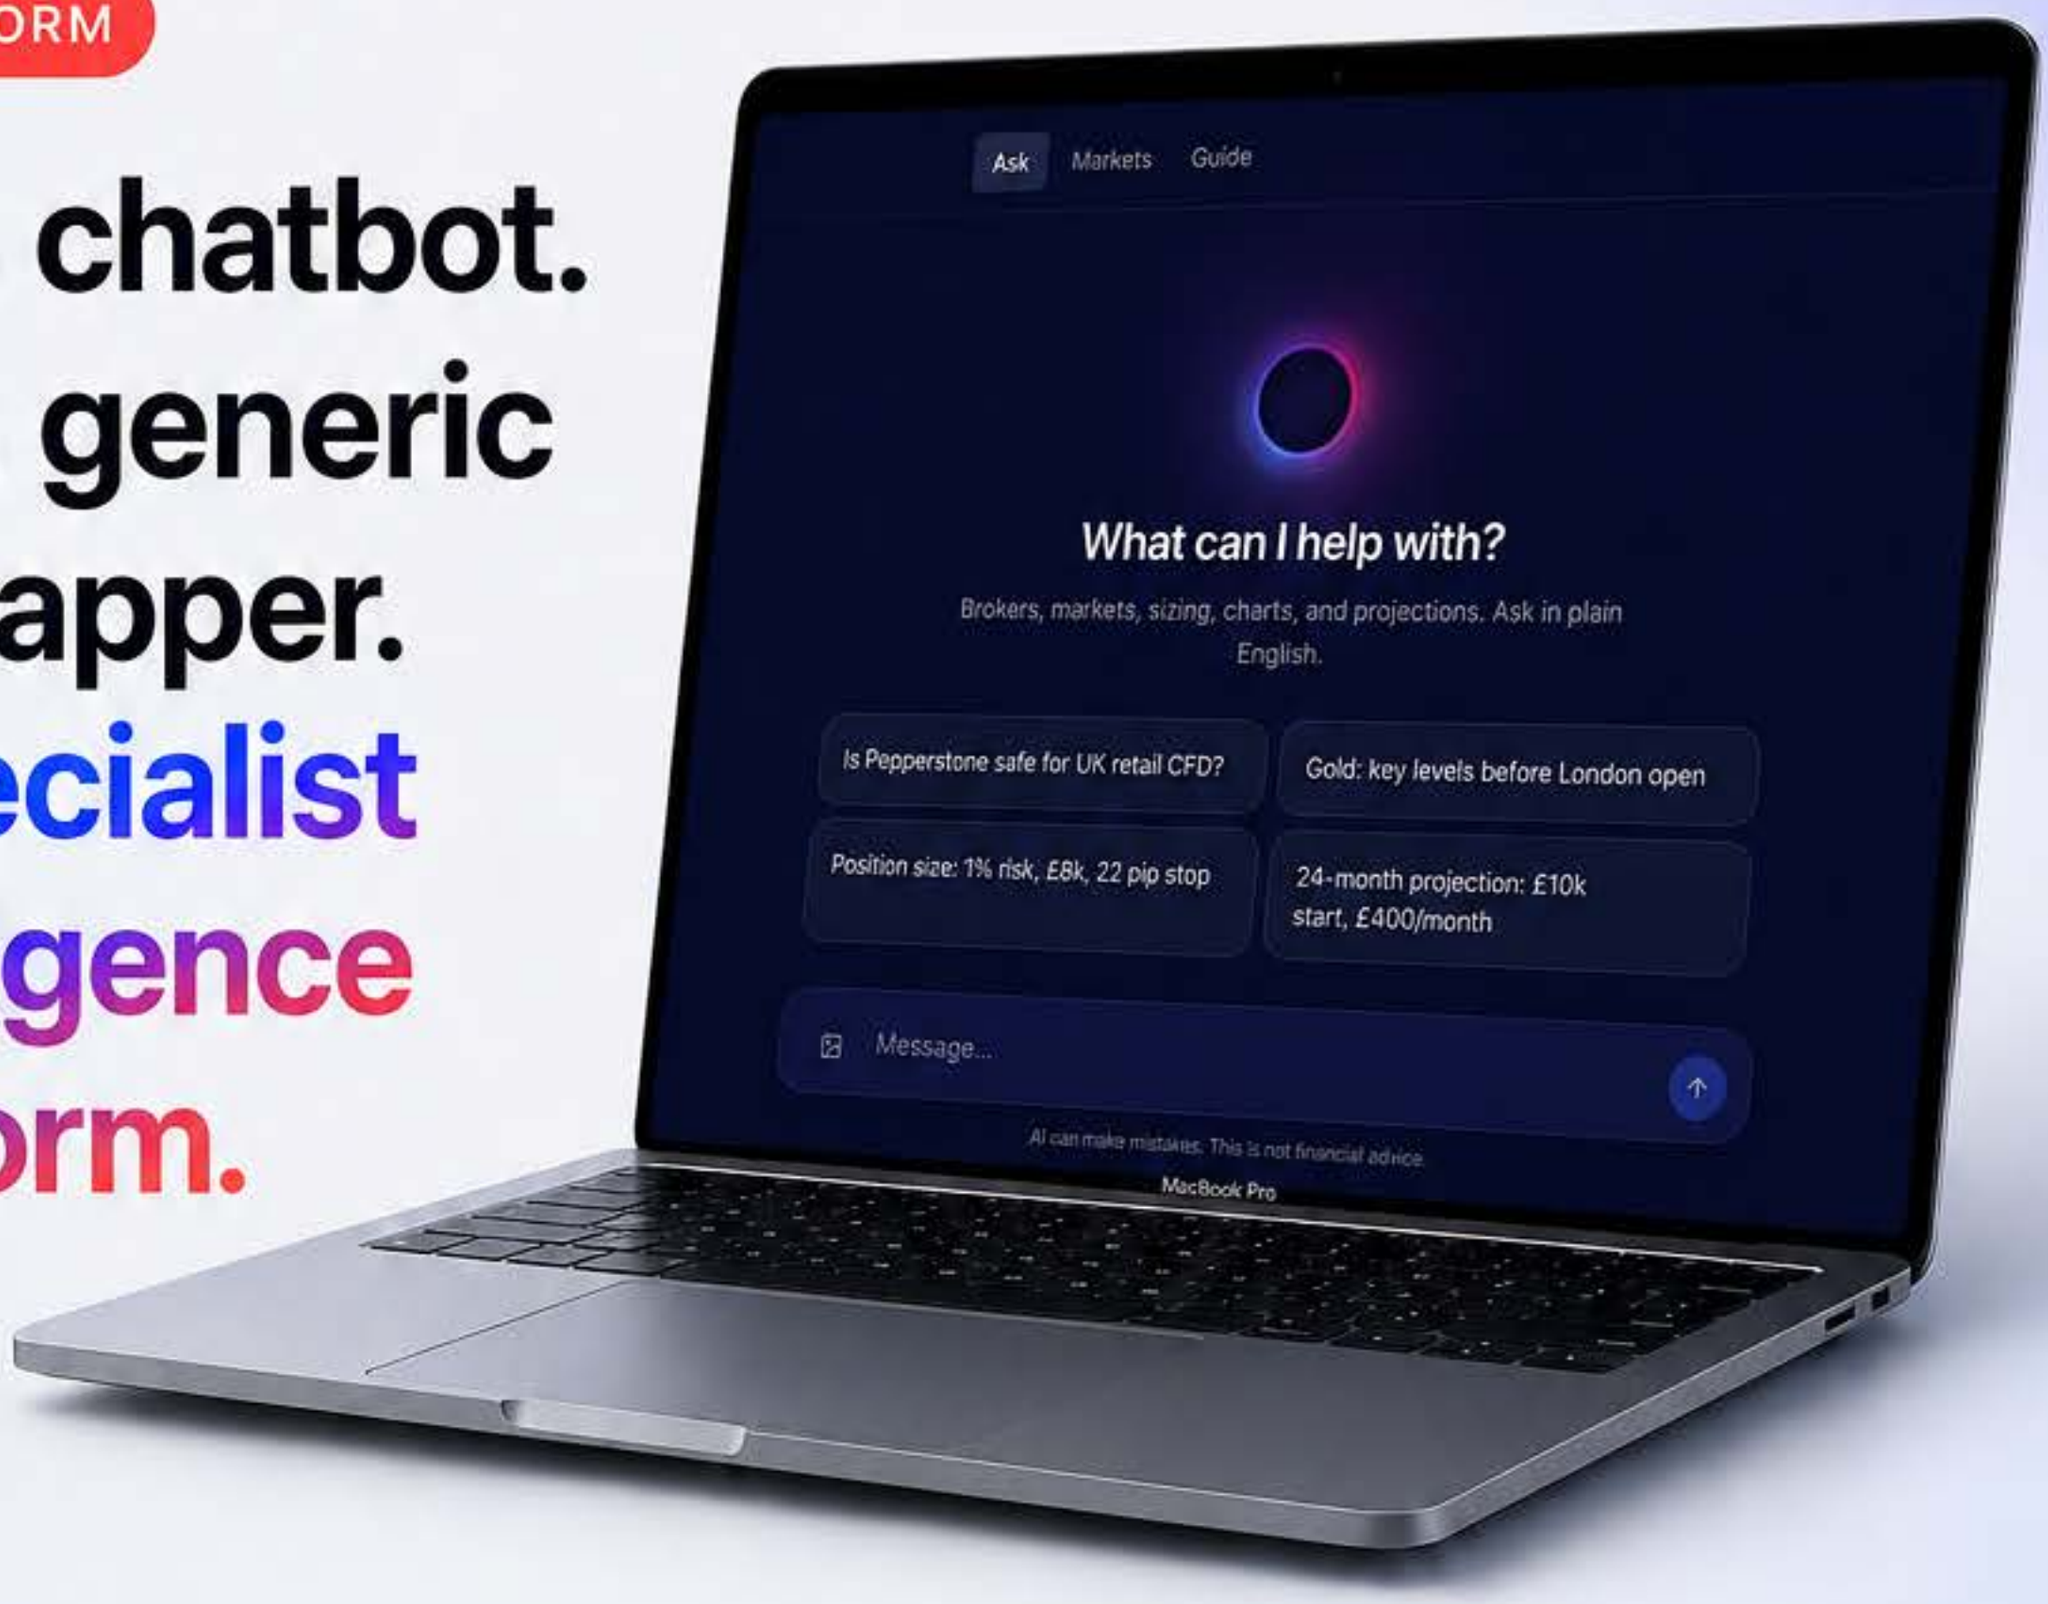

verify.trading was built to fix all four of these problems.

verify.trading

THE PLATFORM

Not a chatbot. Not a generic AI wrapper. A specialist intelligence platform.

Check any broker

Type any broker name. Get FCA status, trust score, complaint history and verdict in 2 seconds.

Verify any trade

Enter pair, entry, stop, target. ITVE scores it 0–100 against 25 professional rules in 3 seconds.

Get a market brief

Before every session: key levels, high-impact news, session bias and verdict.

Calculate position size

£5,000 account, 1% risk, 20-pip stop on Gold. Instant precise result.

Verify any guru

Check any signal service or educator. FCA status, conflict of interest, track record.

Plan your account

Realistic equity projections with losing months included. Set goals.

verify.trading

What makes verify.trading different from ChatGPT, Gemini or Perplexity:

01

FCA broker database — Real-time API.

Not web search.

02

25-rule trading methodology

Injected into every trade check.

03

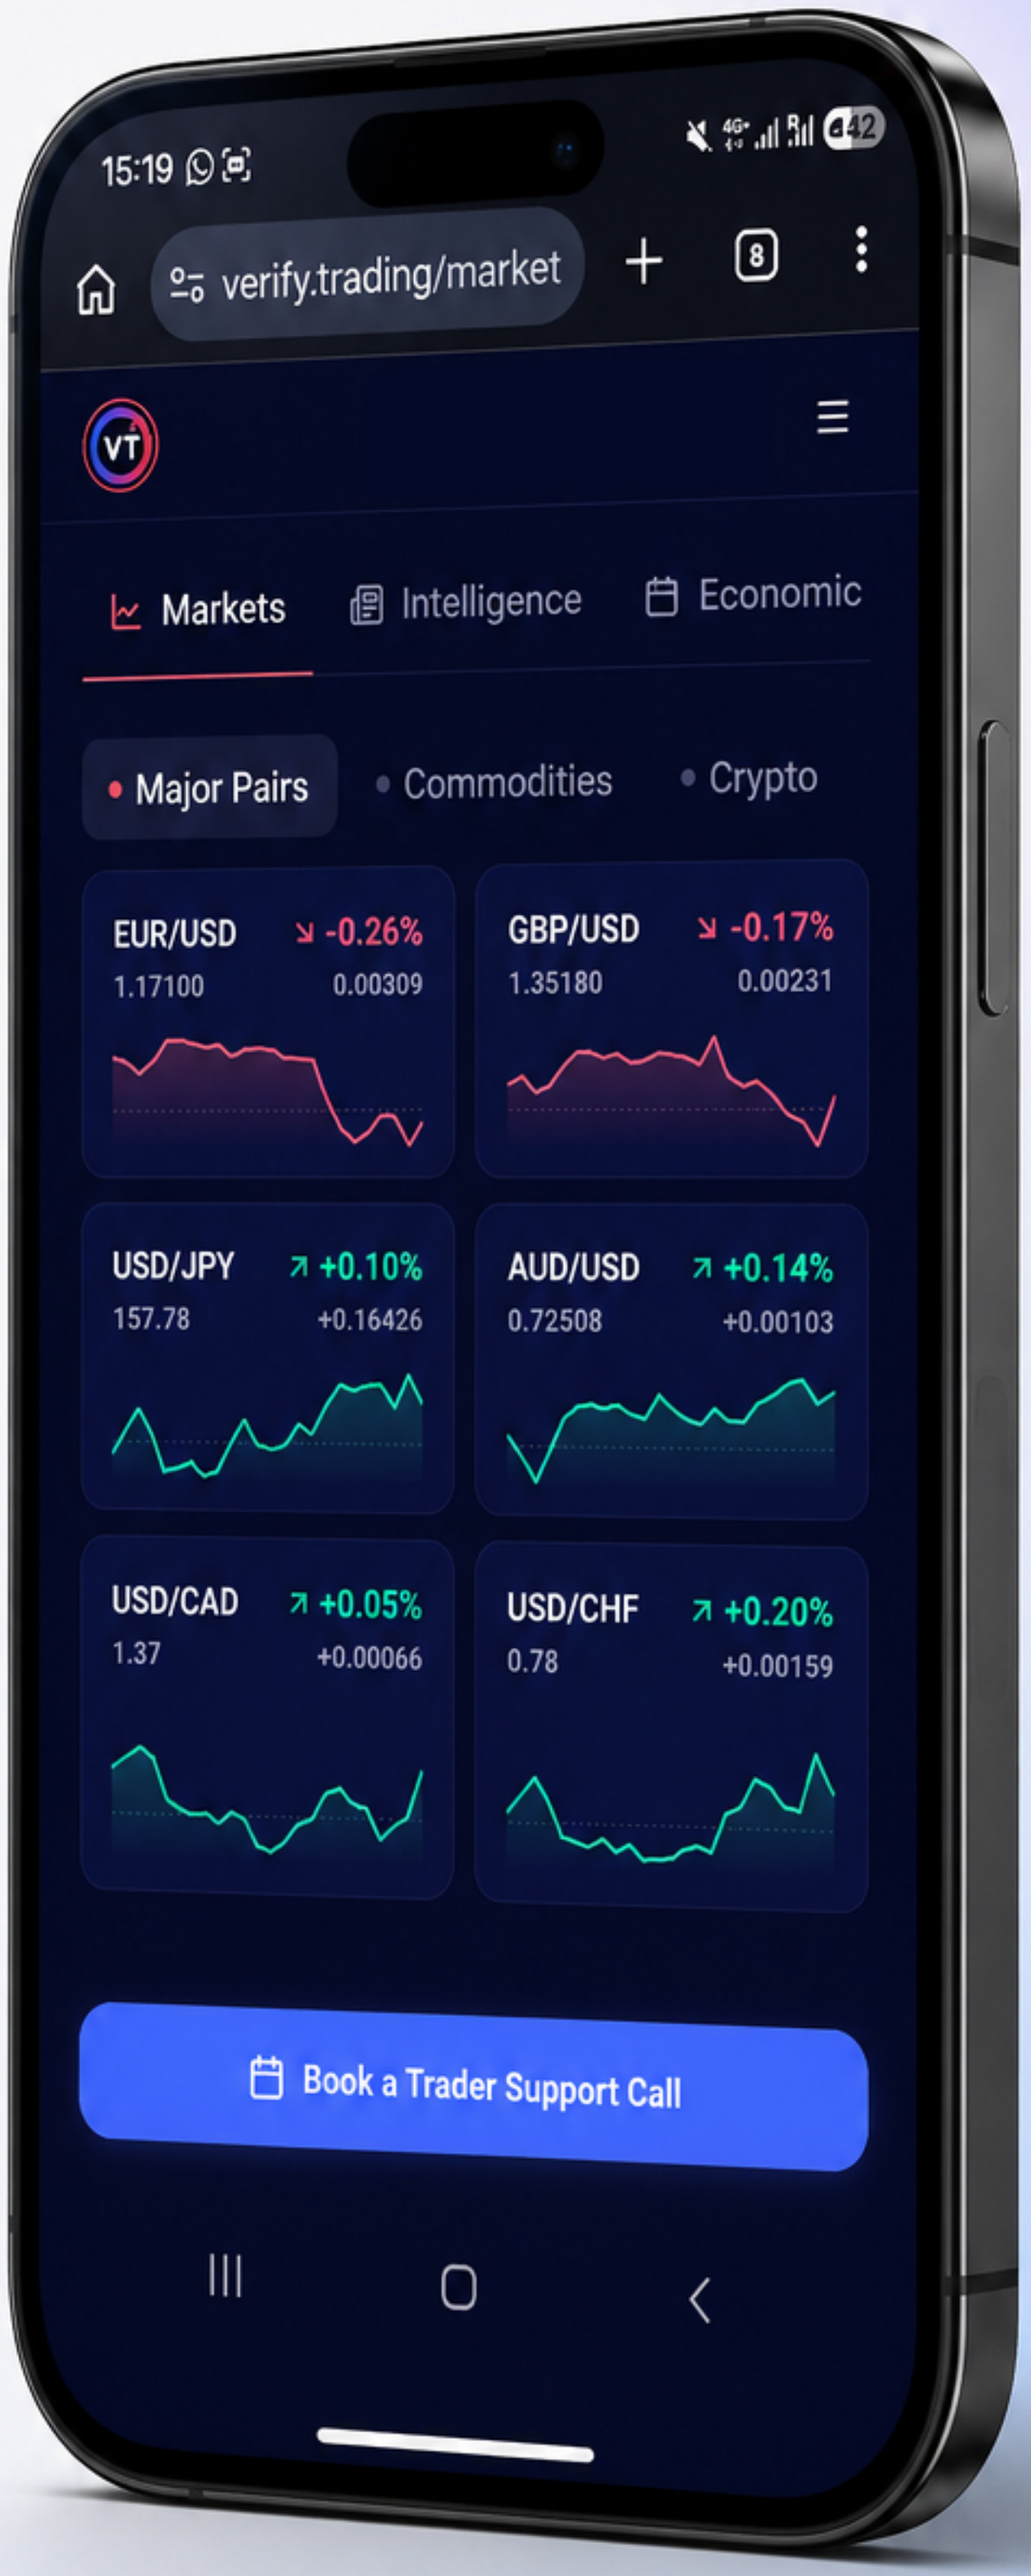

Direct verdict not explanation

VALID. HIGH PROBABILITY.
DO NOT TAKE.
No disclaimers.

04

Built for one audience

General AI discusses trading.
verify.trading does the job.

verify.trading

PROPRIETARY TECHNOLOGY.

Three Engines. Zero Compromises.

Our proprietary technology stack runs three specialised engines in parallel, each purpose-built for a critical layer of market validation. Together, they deliver speed, accuracy and confidence no single model can match.

BTS™

ENGINE 01

Broker Trust Score Engine

- Real-time FCA authorisation check
- Live status, warnings & restrictions
- Financial health & standing verification
- Domain, contact & entity validation
- Trust Score calculated in milliseconds

Score range	0 – 100
Verdict labels	Safe Caution Avoid
Speed	< 500ms
Database	FCA + 50+ sources

ITVE™

ENGINE 02

Institutional Trade Verification Engine

- 25-rule institutional methodology
- Market structure & liquidity analysis
- Entry timing & price confirmation
- Risk, reward & invalidation mapping
- High probability setup detection

Score range	0 – 100
Verdict labels	VALID HIGH PROBABILITY DO NOT TAKE
Speed	< 700ms
Database	Tick data + liquidity feeds

TTS™

ENGINE 03

Traders Trust Score Engine

- FCA status of educators & signal services
- Broker referral income detection
- Track record & cherry-pick analysis
- Pricing fairness benchmark
- Verified educator database

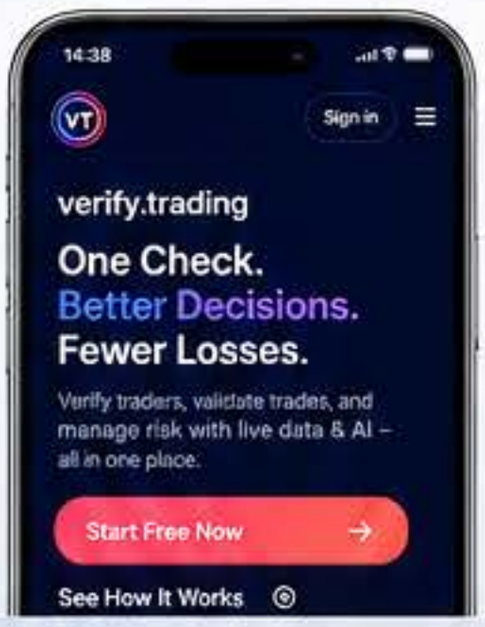

Score range	0 – 100
Verdict labels	Verified Caution Avoid
Speed	< 3 seconds
Database	Major UK educators & signal services

verify.trading

YOUR INTELLIGENCE ENGINE.

One Input. Every Engine.

Ask one question and our intelligence engines get to work. Verify brokers, decode trades, analyze markets, and project outcomes — instantly, accurately, intelligently.

How the Ask tab routes your question:

Broker name or is X safe →	BTS™
Trade details entry SL TP →	ITVE™
Brief me on Gold today →	Market Brief
What lot size question →	Calculator
Guru or signal group name →	TTS™
Account projection query →	Projections

verify.trading

THE PROMPT LIBRARY • PART 1 OF 3.

Copy. Replace. Get your answer.

Replace all text in [brackets] with your actual data.
Natural language — no special syntax required.

BROKER VERIFICATION

BTS™

Check before every deposit

1. Is [broker name] a legitimate and regulated broker?
2. Is [broker name] regulated by [regulator name]? Provide proof.
3. What is the trust score of [broker name] and why?
4. Show me real user reviews and complaints about [broker name].
5. Does [broker name] have a history of payout issues?
6. What trading conditions does [broker name] offer?
   Include spreads, leverage, fees.
7. How long has [broker name] been in business?
8. Is it safe to deposit money with [broker name]? Why or why not?

Always check before the FIRST deposit. After is too late.

verify.trading

TRADE VERIFICATION • ITVE™

Include entry, SL and TP for precise results

1. Validate this trade idea: [instrument], Long/Short, Entry: [price], SL: [price], TP: [price].
2. Is this a high-probability trade setup? [instrument], [entry], [SL], [TP], [timeframe].
3. Check the risk-to-reward and edge: [instrument], Entry: [price], SL: [price], TP: [price].
4. Identify key invalidation levels for this trade: [instrument], Long/Short, [entry], [SL], [TP].
5. Confirm if my stop loss placement is optimal: [instrument], [entry], SL: [price], TP: [price].
6. Analyze market structure and confluence for this trade: [instrument], [entry], [SL], [TP].
7. What is the probability of success for this trade? [instrument], [entry], [SL], [TP].
8. Provide improvements to increase the probability of this setup: [instrument], [entry], [SL], [TP].

ITVE score 75-89 = High Probability. 90+ = Institutional quality.

MARKET BRIEFINGS • PRE-SESSION

Send before 7:30am GMT daily

1. Brief me on today's key market events and catalysts.
2. What are the top 3 things that can move the markets today?
3. Provide a pre-market overview for [Forex / Indices / Commodities / Crypto].
4. What market sentiment are we seeing this morning and why?
5. Key levels to watch today for [instrument / market].
6. What are the risks to watch out for in today's session?
7. Which sectors or assets have the highest probability setups today?
8. Give me the momentum and volatility outlook for today.
9. Summarize today's game plan for traders in one brief.

Pro members get the full daily brief automatically before every session.

verify.trading

POSITION SIZING • CALCULATORS

Account size, risk % and SL pips needed.

1. Calculate my position size. Account: [amount], Risk: [x]%, SL: [x] pips.
2. How many lots should I trade? Account: [amount], Risk: [x]%, SL: [x] pips.
3. What is my monetary risk? Account: [amount], Risk: [x]%, SL: [x] pips.
4. If I want to risk [amount], what lot size should I use? SL: [x] pips.
5. If I reduce my SL to [x] pips, how does my lot size change? Risk: [x]%.
6. If I increase my risk to [x]%, what position size can I take? SL: [x] pips.
7. Calculate position size for [instrument]. Account: [amount], Risk: [x]%, SL: [x] pips.
8. What is the max lot size I can trade? Account: [amount], Risk: [x]%, SL: [x] pips.

All three inputs — account, risk and stop pips — produce a personalised answer.

GURU & SIGNAL VERIFICATION • TTS™

Check before you follow or pay anyone.

1. Is [guru / signal name] legitimate and trustworthy?
2. Does [guru / signal name] have a verified track record?
3. Is [guru / signal name] regulated by the FCA or any authority?
4. Does [guru / signal name] earn broker referral income?
5. What is the real performance of [guru / signal name]? Show proof.
6. Are there complaints or negative feedback about [guru / signal name]?
7. Should I follow or pay [guru / signal name]? Yes or No and why.

TTS checks FCA status, broker referral income and track record on every query.

verify.trading

POWER USER PROMPTS • COMBINATIONS

Combine features in a single question.

1. Is [broker name] legitimate, regulated, and safe? Include trust score, proof, and real user reviews.
2. Analyze this trade idea: [instrument], Long/Short, Entry: [price], SL: [price], TP: [price]. Include probability, risk-to-reward, key levels, and invalidation.
3. Check [guru/signal name] for legitimacy, FCA status, track record, broker referral income, and real performance. Should I follow or pay?
4. Brief me on today's markets and give me 3 high-probability setups with entries, SL, TP, and position size for my account of [amount] risking [x]%.
5. Verify [broker name] and compare it with [broker name]. Include trust score, regulation, fees, spreads, leverage, and user feedback.
6. I want to trade [instrument]. Give me a full plan: market brief, key levels, setup, risk management, and position size.
7. Is this a good time to trade [instrument]? Include market sentiment, catalysts, risks, and high-probability setups.
8. Create a trade plan for me today: top opportunities, entries, SL, TP, position size, and risk management for my account of [amount] risking [x]%.

Write to verify.trading the way you would message a trader you trust completely.

PRO EXCLUSIVE FEATURE.

Markets Tab. Your live market command centre.

Track 30+ live assets across FX, commodities, indices and crypto. Real-time prices, trend charts, and instant insights — all in one powerful view.

FEATURES

30+ live assets
Forex, commodities, indices & crypto.

Category toggle
Switch between asset classes instantly.

Price cards
Live price, % change & mini trend chart.

Session performance
See how assets move in real market sessions.

Trend indicators
Spot momentum with real-time sparklines.

One-tap to Ask
Get instant AI insights on any market.

Markets tab is Pro only. Free members see a locked preview.

verify.trading

Market Intelligence. Economic Calendar.

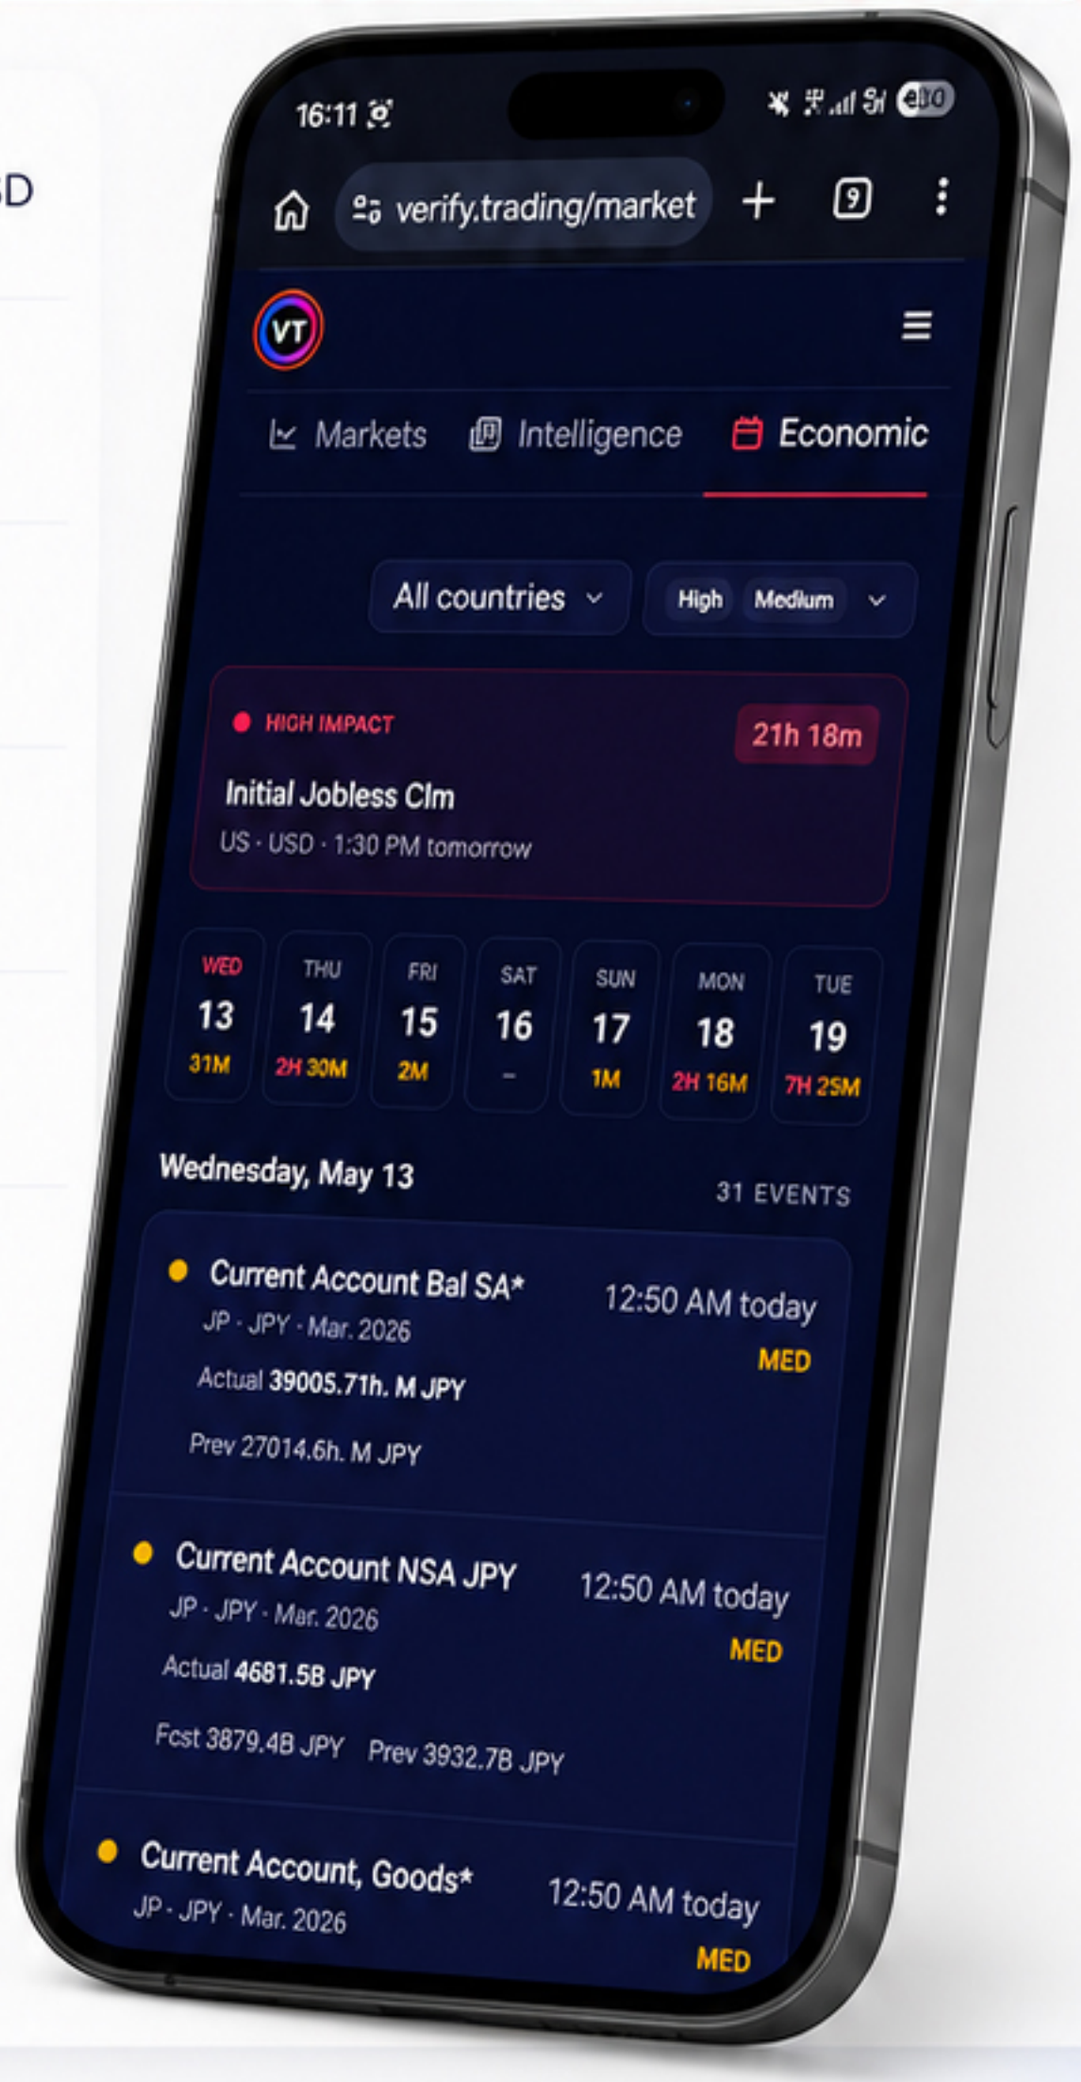

Two features that put you in front of the market before the session begins.

MARKET INTELLIGENCE — Pre-session briefs on every major asset.

- **Asset:** Gold • Oil • EUR/USD • GBP/USD
- **Key levels:** Support, resistance, range
- **Session bias:** Bullish • bearish • neutral
- **News impact:** High-impact events flagged
- **Entry zones:** Areas to watch
- **Verdict:** Trade or stand aside

Delivered: Before London open — every trading day

Format: Clean cards · direct verdicts.

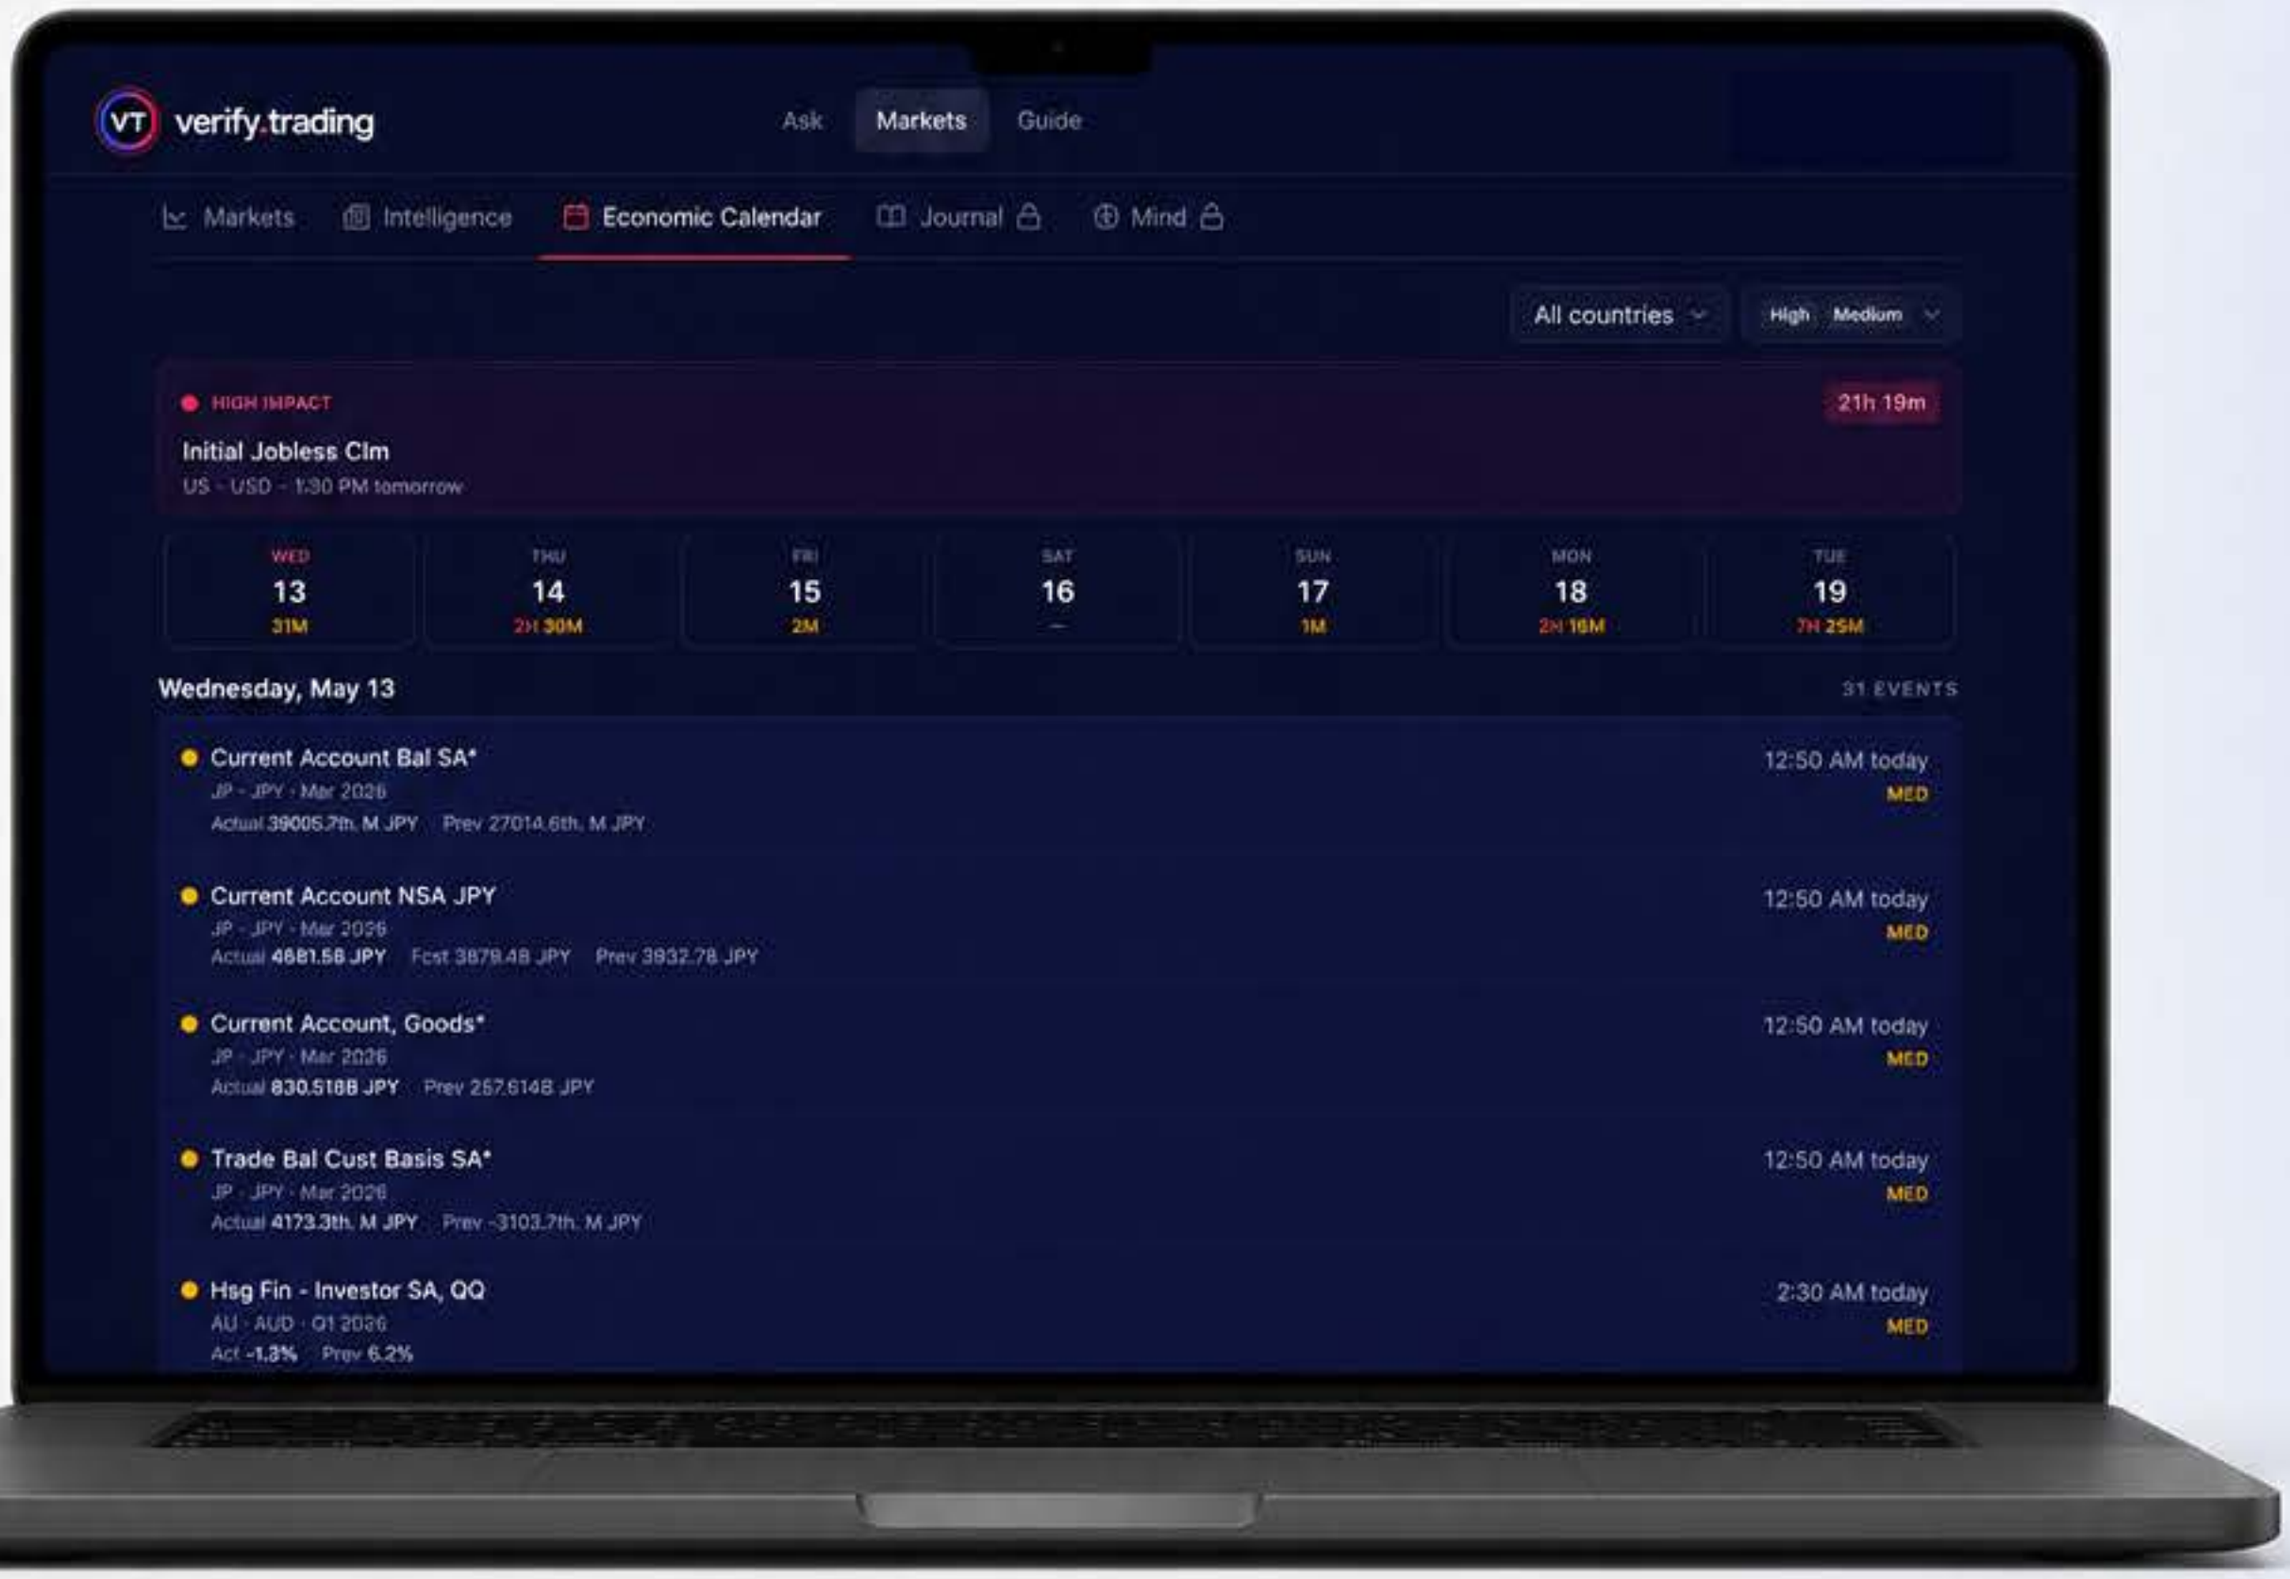

> **“Brief me on Gold before London open today.”**

The single most valuable daily prompt.

verify.trading

ECONOMIC CALENDAR — High-impact events only. No noise.

	Time	Event	Asset	Impact
🔴	13:30	NFP Report	USD pairs	±80-120 pips
🔴	14:00	Fed Rate Decision	USD	±100-150 pips
🔴	07:00	UK CPI Data	GBP pairs	±50-70 pips
🔴	09:00	ECB Conference	EUR pairs	±60-80 pips
🔴	12:30	US Retail Sales	USD pairs	±30-50 pips
🔴	09:30	UK GDP Data	GBP pairs	±40-60 pips

No new positions 15 min before red events.
Wait for the spike. Trade the real move after.

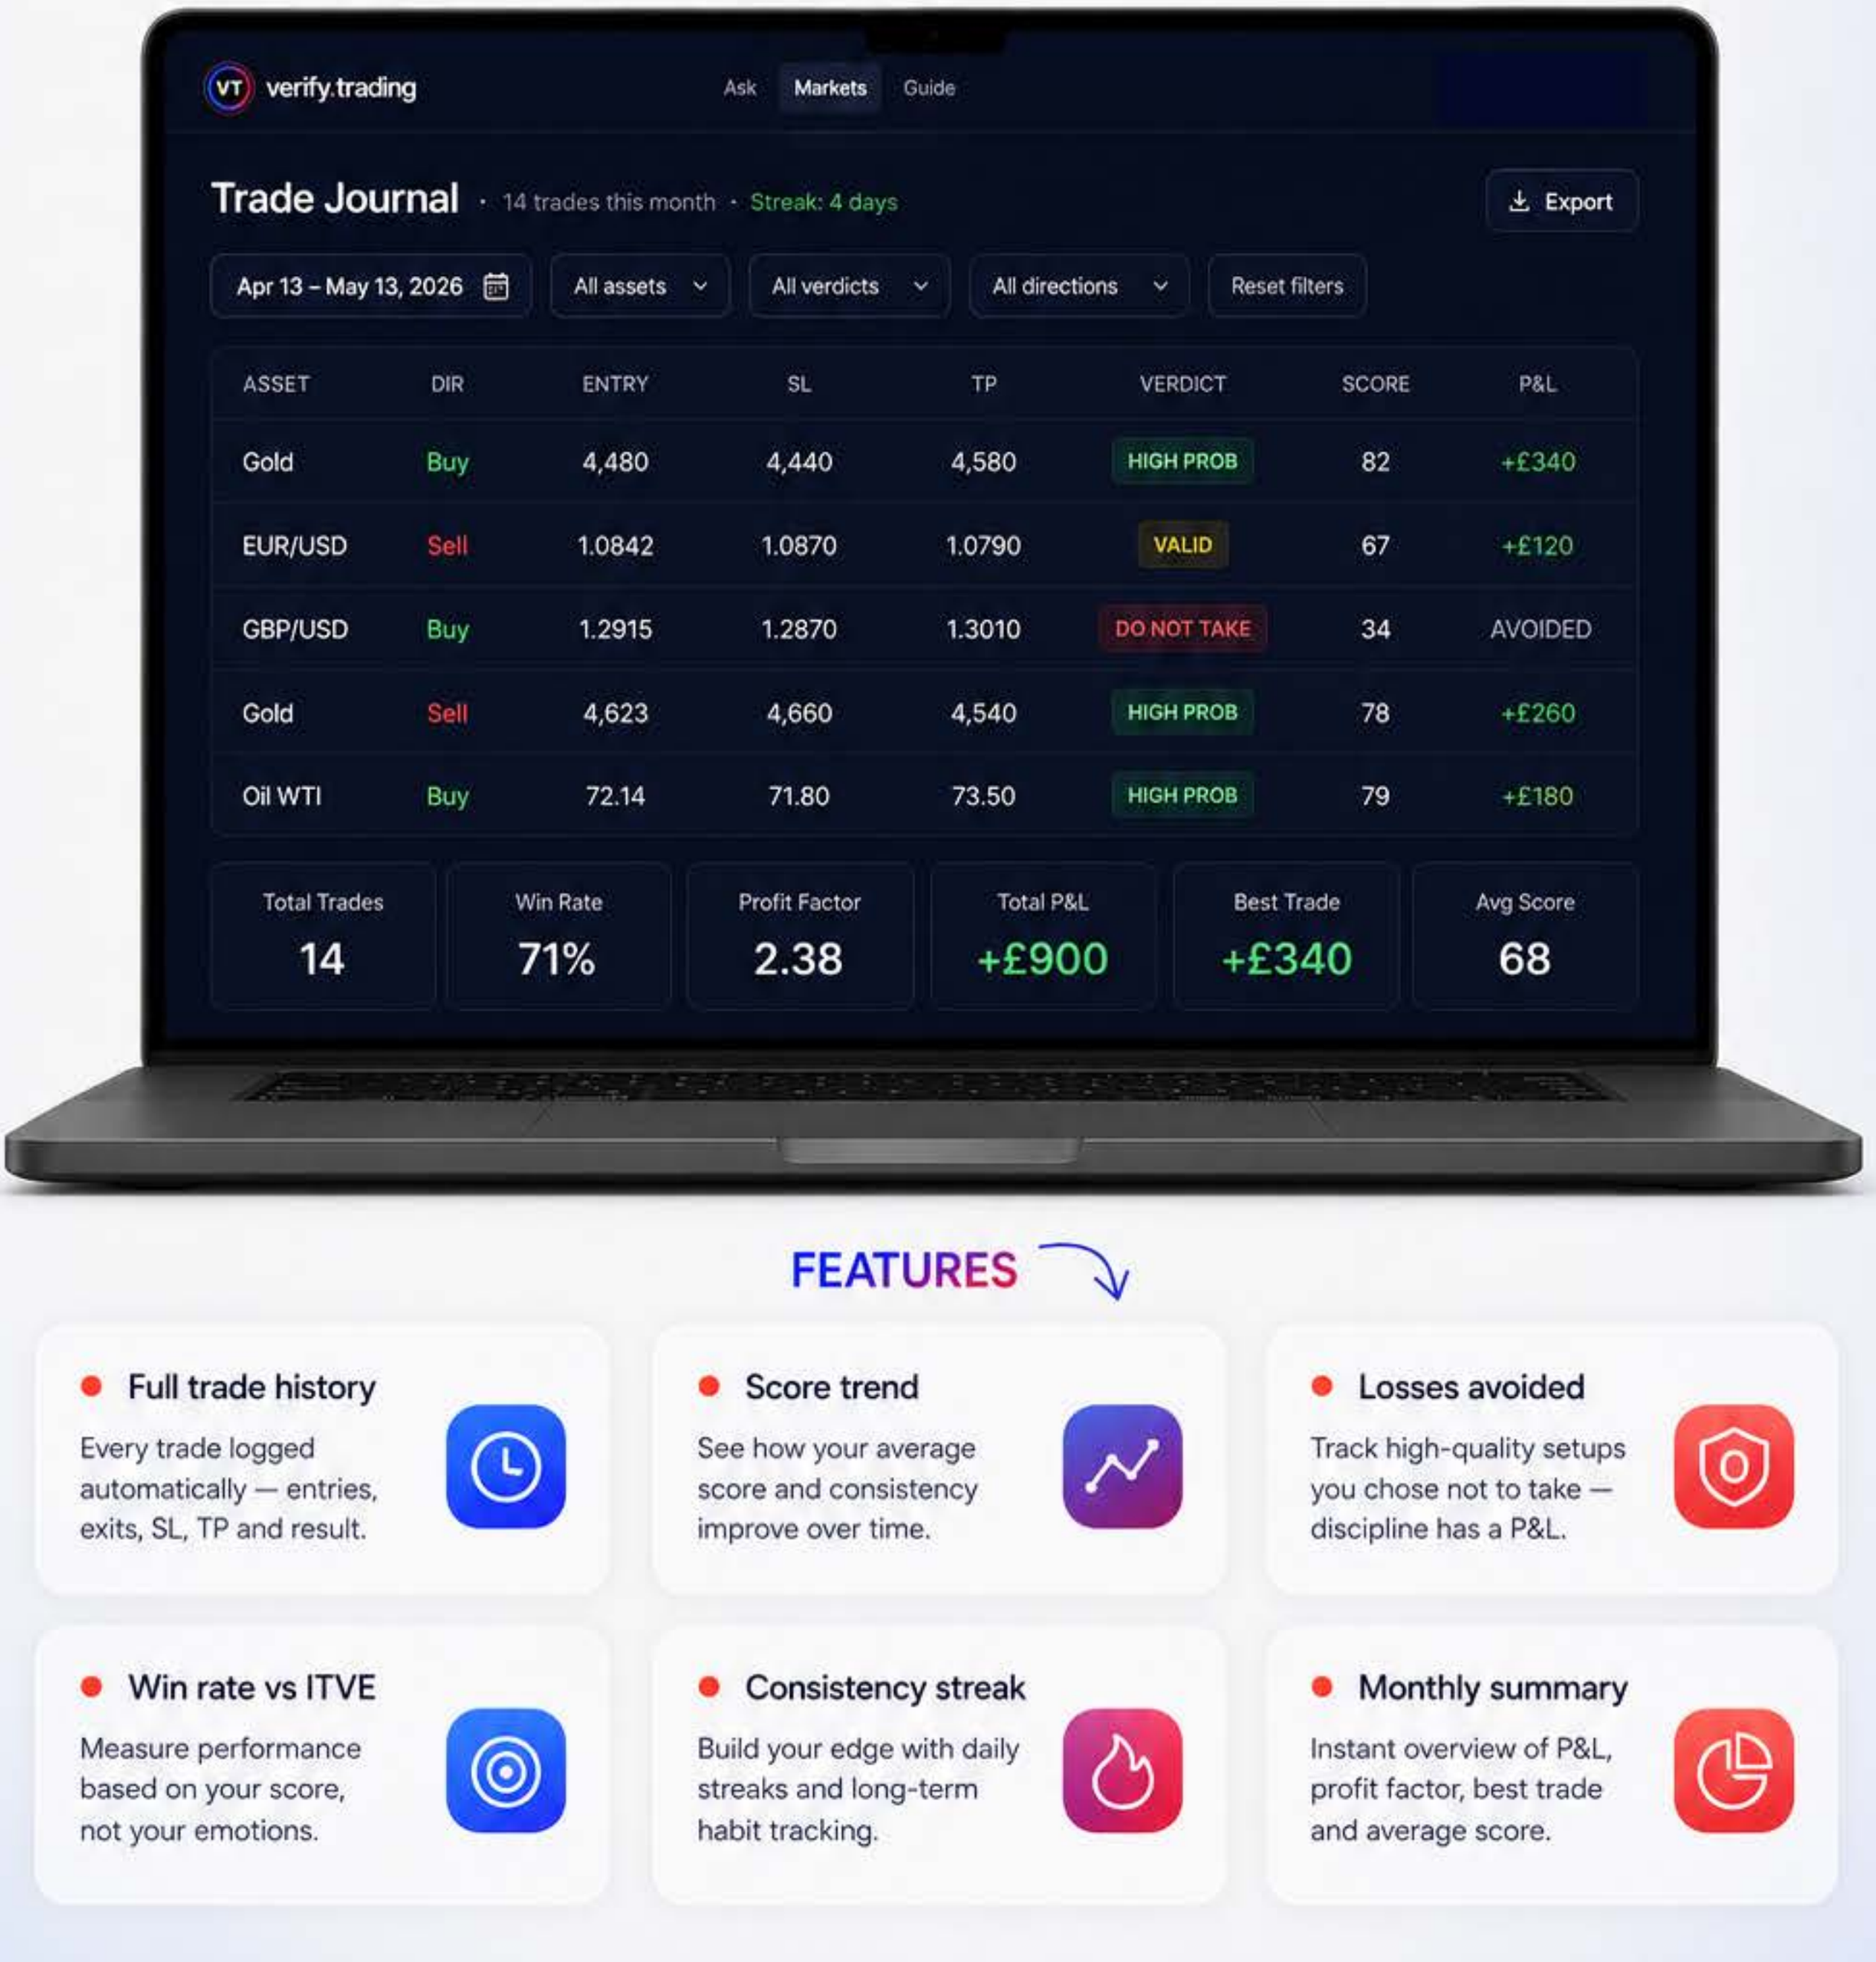

Together these two features mean you start every session fully briefed — before you open a single chart.
Both features are Pro only.

verify.trading

PRO EXCLUSIVE FEATURE

Trading Journal. Every decision. Automatically recorded.

Your edge comes from process, not luck. Our journal captures every trade, scores every setup, and shows you what to keep — and what to kill.

FEATURES

- **Full trade history**
  Every trade logged automatically — entries, exits, SL, TP and result.
- **Score trend**
  See how your average score and consistency improve over time.
- **Losses avoided**
  Track high-quality setups you chose not to take — discipline has a P&L.
- **Win rate vs ITVE**
  Measure performance based on your score, not your emotions.
- **Consistency streak**
  Build your edge with daily streaks and long-term habit tracking.
- **Monthly summary**
  Instant overview of P&L, profit factor, best trade and average score.

verify.trading

PRO EXCLUSIVE • THE FEATURE NOBODY ELSE HAS BUILT.

Psychological AI.

Trading is 80% psychology. Now there is a tool for it.

The first AI built to understand your mindset and protect your edge.
It spots emotional risk, guides better decisions, and helps you show up like a professional — every single day.

Emotional State Check

Before you trade, ask the AI how you are feeling. Returns ready to execute, reduced size, or stand aside.

Post-Loss Management

After a losing trade the AI detects revenge trading impulses and runs a structured reset protocol.

Overconfidence Detection

After a winning streak the AI flags risk of oversizing and overtrading.

Session Readiness Score

Short structured check-in before each session. Returns readiness score and sizing adjustment.

PSYCHOLOGICAL PROMPTS TO USE RIGHT NOW:

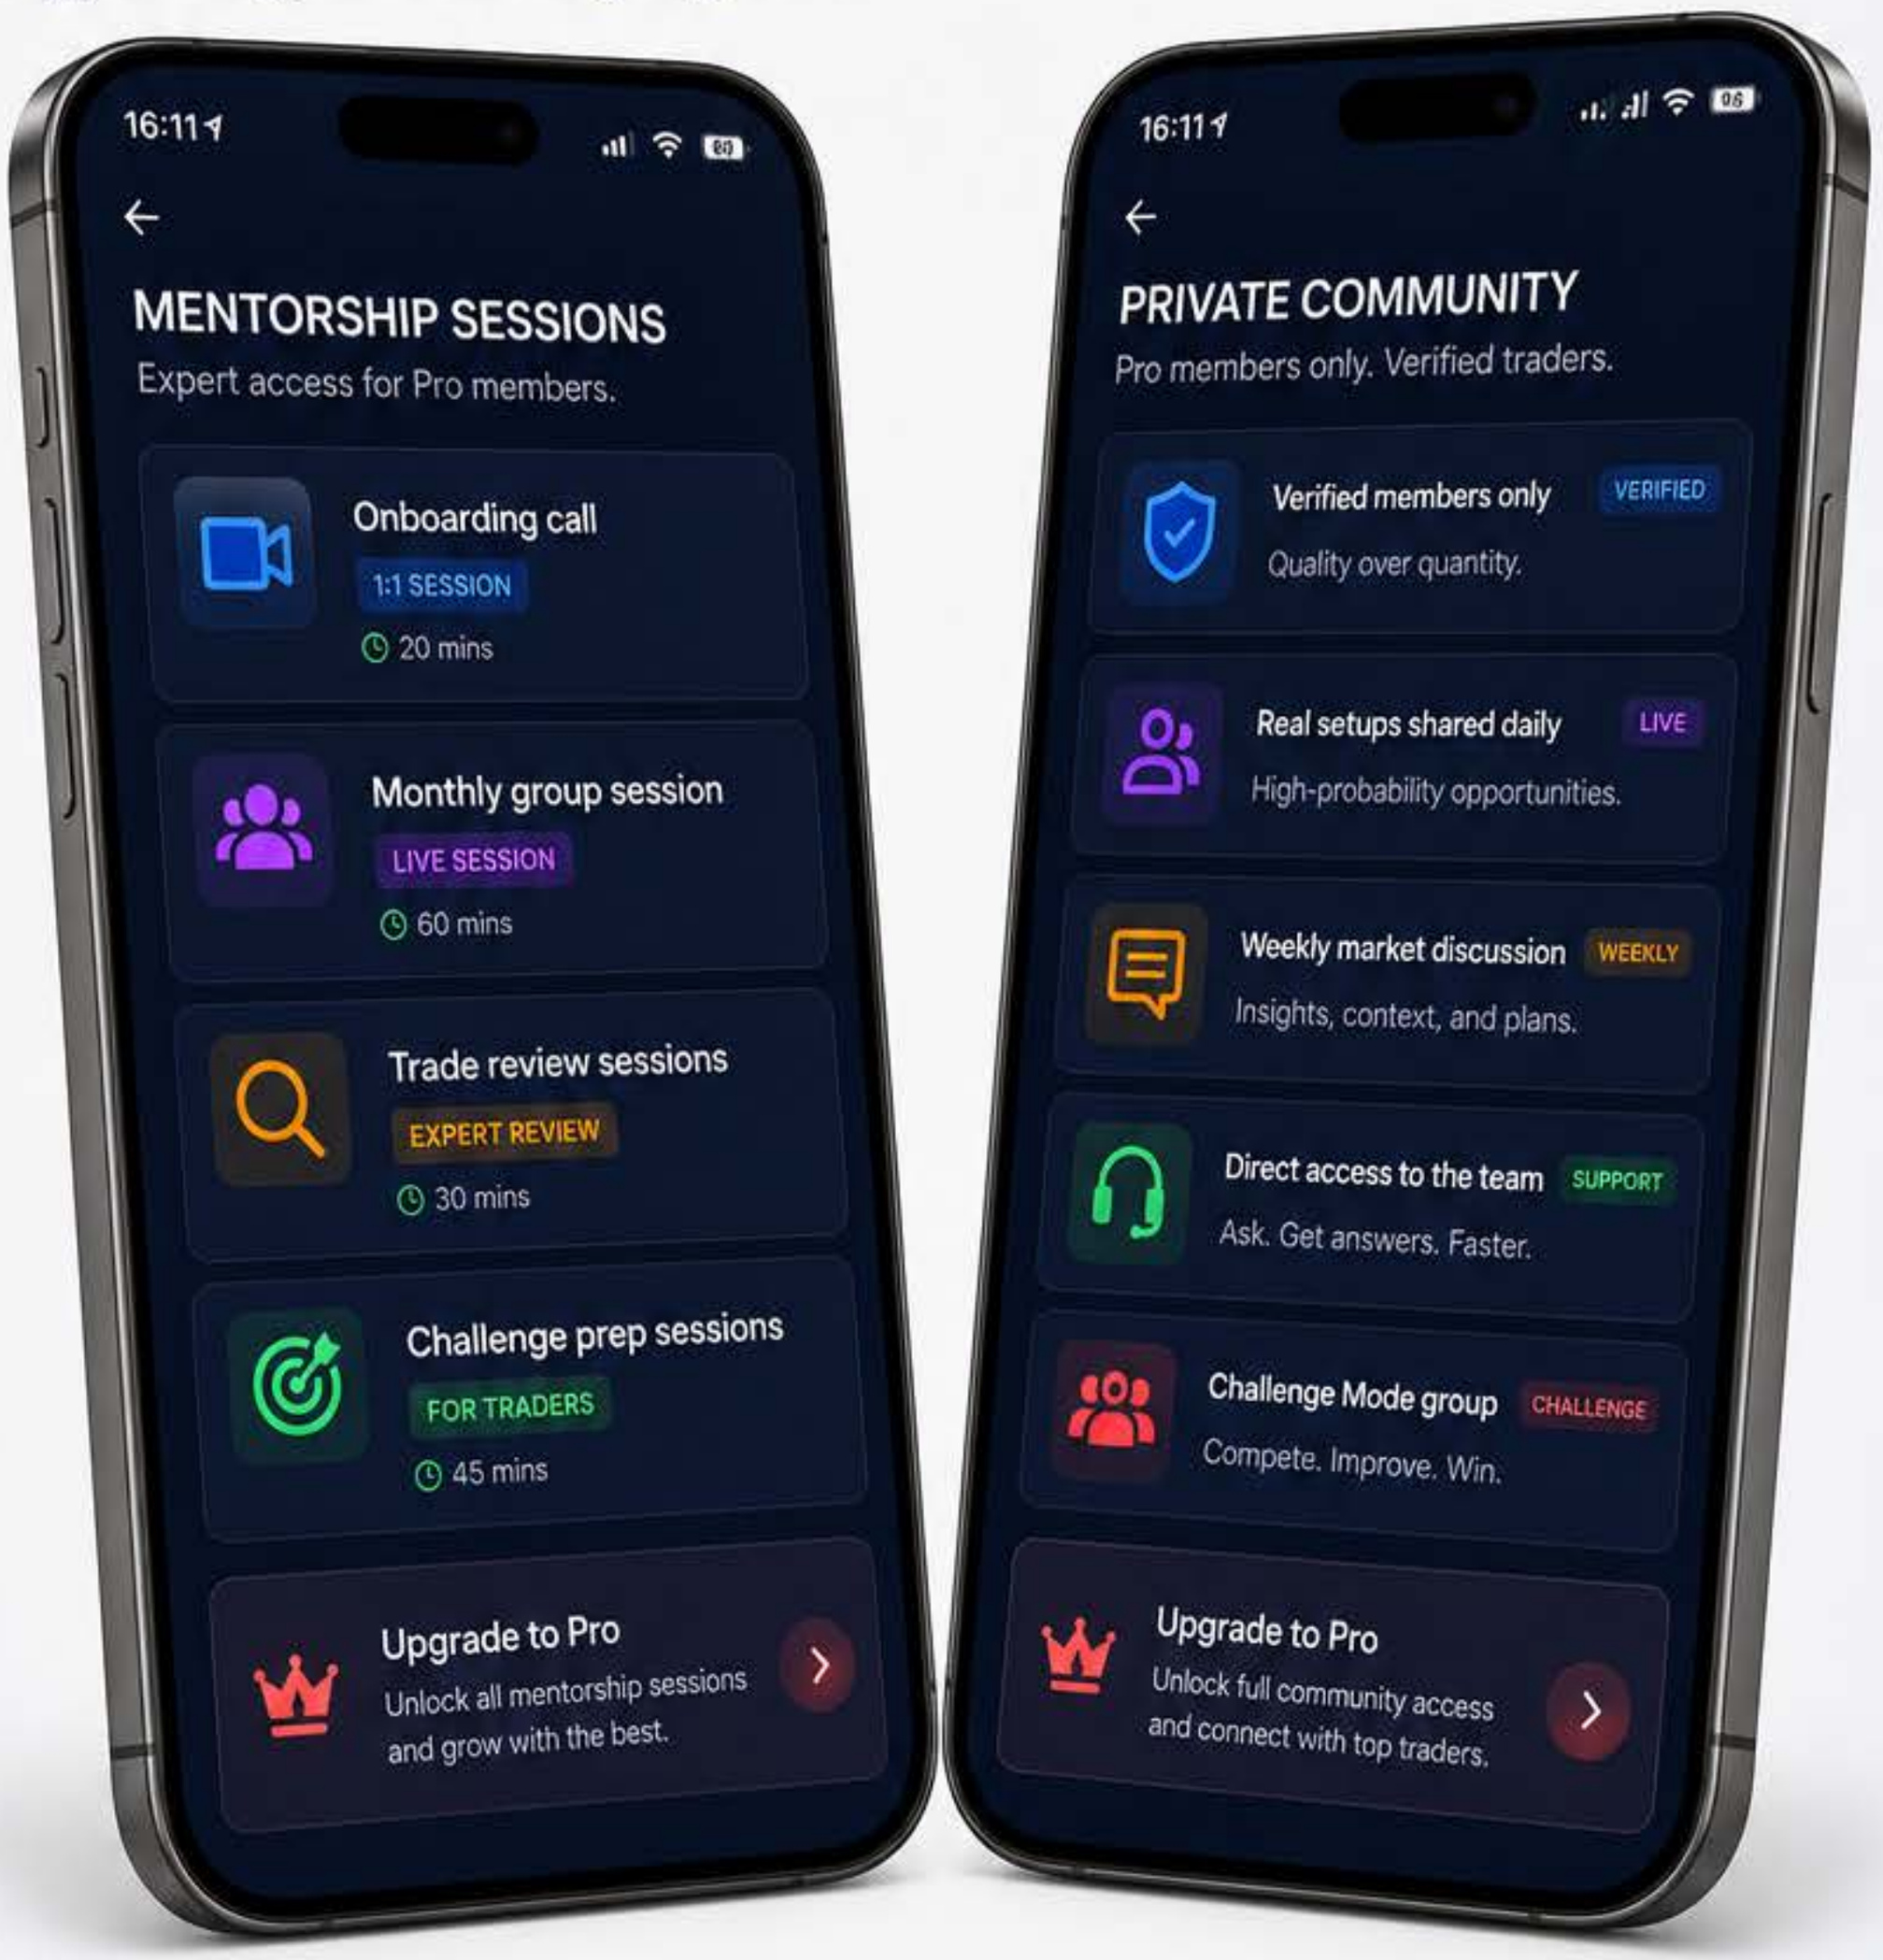

- How am I feeling right now and how should that impact my trading today?
- Should I trade, reduce size, or stand aside? Give me a clear answer and why.
- What biases are most likely to affect me today?
- Am I trying to prove something or follow my plan?
- How can I protect my capital and mindset if I face a losing streak?
- What is my best play today based on my current mental state?

verify.trading

PRO EXCLUSIVE • HUMAN INTELLIGENCE

Mentorship and Community.

You don’t have to do this alone. Get direct access to professional mentors and a private community of serious traders who are building, sharing, and winning together.

The quality of your network is the quality of your trading.
The community is the hidden multiplier in the Pro subscription.

verify.trading

THE CASE IN FULL.

Free gives you the verdict. Pro builds your entire trading operation.

01

The 5-check limit is the ceiling you will hit today

Free is perfect to try. But five checks a day isn't enough
when real opportunities don't wait.

02

The morning brief replaces 45 minutes of manual research

Market Intelligence and the Economic Calendar give you
clarity before noise and emotion take over.

03

The journal shows you the pattern in your own mistakes

Automatic tracking, scoring, and verdicts turn every trade
into data you can actually use.

04

The Psychological AI catches the decisions that cost most

It spots emotional risk, overconfidence, and revenge trading
before they hit your account.

05

Challenge Mode protects funded accounts from silent breaches

Real-time rule monitoring and daily scorecards
keep you compliant and in control.

06

At £20 per month the maths are straightforward.

One good week of better decisions pays for Pro.
The edge compounds from there.

Serious traders don't guess.
They verify. Every trade.
Every session. Every day.
Pro for the trader becoming.
